VT3M	3m
VT5M	5m
VT10M	10m
VT15M	15m
VT20M	20m

VT639508 CAMERA

A 69° camera provides an image closer to that of a rear vision mirror. Some customers may prefer this if their primary reason for the system is to watch trailing traffic.

Other customers prefer the 120° as it is able to offer a view behind the trailer when manoeuvring the trailer.
